

2024 Pharmacy Benefit Formulary Changes

We want to keep you informed about changes to your prescription drug benefit for the 2024 plan year. These changes may impact the coverage of certain medications, and it is essential to keep you informed and prepared.

- Effective January 1, 2024, **Navitus Health Solutions** will be the Pharmacy Benefit Manager for OhioHealthy.
- You will notice some medications are covered differently than they have in the past.
- These changes are part of our ongoing efforts to manage costs and provide the best possible coverage to our members.
- While we understand that any formulary changes can be challenging, we want to ensure that you have all the information you need to navigate this transition smoothly.
- As in years past, we will not cover medications available over the counter. Some examples include oral allergy medications, reflux/antacid medications, allergy nasal sprays, eye drops and acne medications.

Some of the larger changes are outlined below. These include medications not covered by the plan. **Please note this is not an exhaustive list of changes.** We recommend that you review the changes below and the updated prescription drug list located on OhioHealthRewards.com to see how your medications may be impacted.

Below is a list of medications NOT COVERED through the pharmacy benefit. Alternative items are listed to the right. Please note, the not covered medications listed below may be available through the Exception to Coverage Process if medically necessary. Impacted members will receive more information on how to request coverage following open enrollment.

ADHD AGENTS

Drug Name	Alternatives
ADZENYS, APTENSIO XR, AZSTARYS	amphetamine/dextroamphetamine ER cap lisdexamfetamine dimesylate cap methylphenidate ER tab
ADDERALL XR	amphetamine/dextroamphetamine ER cap
