

On-demand virtual urgent care.

Easy-to-access virtual urgent care to maximize member outcomes and reduce costs.

Appropriate and timely care.

- + Equip members with the most convenient, cost-effective, and high-value care.
- + Access to 24/7 care within minutes—no appointments or scheduling required.
- + Available through mobile and web to adults and children over 5—in all 50 states.

Reduce ED and urgent care visits.

- + On-demand virtual care helps members avoid costly emergency department and urgent care visits.
- + Members can access care instantly through the Rightway app or chat with a nurse for clinical triage when needed.

Superior member experience.

- + When a member's PCP is unavailable, they can quickly connect with a doctor via Curai, Rightway's telemedicine partner.
- + Members can conveniently chat with licensed clinicians to address symptoms, request prescription refills, and get mental health support.
- + Rightway's care team supports the member throughout their journey to ensure they receive the care they need.

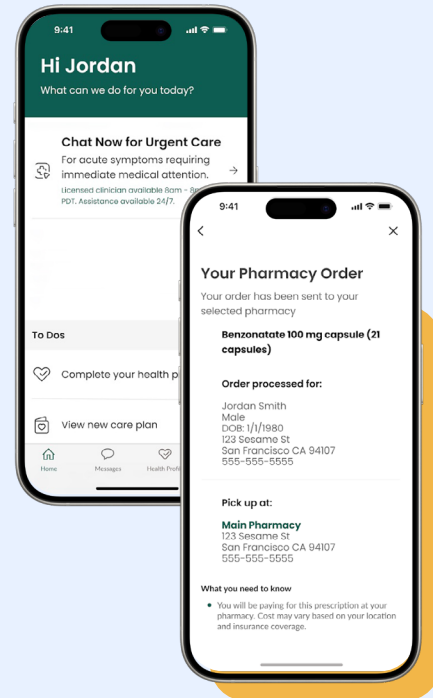

TYPE OF CONDITIONS TREATED

- + Throat pain
- + Women's health
- + Mental health
- + Asthma
- + Hypothyroidism
- + Hypertension
- + Diabetes
- + Allergy symptoms
- + Headache
- + Injuries
- + Dermatology
- + Cold & fever symptoms
- + And more

How it works.

- 1 Members can access Curai through the Rightway mobile or desktop app. Nurses can also recommend virtual urgent care based on a member's symptoms or concerns.
- 2 Within minutes, members connect with a Curai MD, DO, or ARNPs for their urgent care visit. The Curai team will diagnose, treat, prescribe, and schedule a follow-up if needed.
- 3 Rightway nurses provide seamless post-visit support, coordinating prescriptions, labs, imaging, referrals and recommend employer's third party solutions, when applicable, to enhance ongoing care.

**AVAILABLE
24/7**

**ACCESS TO CARE
WITHIN MINUTES**

**NATIONWIDE COVERAGE FOR
ADULTS AND CHILDREN 5+**

“

Telemedicine has been an invaluable addition to Rightway's care navigation services. Our employees have praised its convenience and accessibility, and the quality of care they receive is outstanding"
